

STATEMENT

We, undersigned Laboratoires ANIOS, attest that our high level disinfectant **ANIOXYDE 1000**, has been developed to be compatible with a wide range of medical devices according to the recommendations of use.

Studies of compatibility specifically realized on optical equipment such as ocular tonometry, three miroirs lens, Layden glasses and cryode material have good results. Moreover, due to the absence of negative feedback from our customers, currently, no information allowed us to declare a use restriction of **ANIOXYDE 1000** on optical equipment.
