

TD3_Form 5 Financial proposal

Mr/Ms _____⁽¹⁾, with ID number _____, in his/her capacity as _____⁽²⁾ of the company _____⁽³⁾, by virtue of the power of attorney granted before the Notary Public of _____, Mr/Ms _____, on ____ of ____ of ____, under number ____ of his/her official records^(*).

Aware of the conditions and requirements, which he/she accepts, and which are required for the award of the contract corresponding to the TurboWave Project by means of the Pre-commercial Public Procurement Procedure, and with which he/she undertakes to comply fully and unreservedly, strictly subject to the Request for Tenders Document,

I.-Undertakes, on behalf of (his/her own name or that of the company he/she represents), to enter into the aforementioned contract, strictly subject to the aforementioned requirements and conditions, for the following prices for Phase (I/II/III):ⁱ

Amount (excluding VAT): _____ EUR (I)

These prices include any taxes and charges applicable to this contract, excluding VAT which is shown as a separate item, and shall be paid by transfer to a single bank account to the following account number provided by the contractor _____.

Mandatory, the reflected offer will be expressed in euros (€). Similarly, payments will also be made in euros (€).

II.-Declares that, for all purposes, it must be understood that, within this proposal, not only the price of the object of the contract has been included but also the totality of fees, taxes and any other cost associated with the project, which can include, but not limited to, the following:

- The financial costs derived from the provision of guarantees and insurance; the costs incurred in preparing the site, including the transportation, movement and storage of materials.
- Day and night surveillance, custody and protection of the materials and equipment deposited in the construction site.
- The supply and maintenance of warning signs, night traffic lights and everything indicated by current regulations for safety purposes.
- All interventions aimed at preventing damage to the natural environment and all necessary measures to restore the natural environment disturbed by the activities mentioned above.
- All charges derived from the disposal of materials derived from the activities and charges for the disposal of waste removed for the preparation of the site or execution of the Phase III field test activities.

III.-That, in order to guarantee the contracts be qualified as R&D services, the following breakdown of the financial proposal is attached to this document: TD3_Form 6 Breakdown of Economic Proposal. The form referenced above must coincide in its total amount with the economic offer indicated in this document. For more information, see TD3_Form 6 Economic Proposal Breakdown.

IV.-He/she undertakes to strictly observe the provisions in force with regard to the personnel he/she employs in the performance of the contract, especially in matters of labour, Social Security, Occupational Risk Prevention and Data Protection legislation.

V.-He/she undertakes to pay EVE an 8% of the net annual sales derived from the future exploitation of the commercial result of the service object of this PCP, as Royalties, according to the regulation established in the Request for Tenders Document and the Framework Contract.

And, as evidence hereof, I hereby issue this declaration in the city of _____, on ____ of ____ of ____.

Mr/Ms¹. _____ (1)
